

## REMARKS

Applicants wish to thank Examiner Tran for indicating, in a teleconference on July 9, 2004, the allowable subject matter as claimed by independent claim 1 of the subject application. Applicants have amended independent claims 12 and 23 to conform to claim 1.

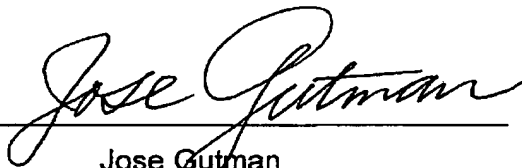

Applicants have also amended claim 1 to provide proper antecedent basis by removing a reference to the text-to-audio converter. The claim element now recites "a modulator for modulating audio content to provide audio-modulated signals". Applicants previously submitted the removal of this reference in Applicants' response to the final office action. The response was not entered by the Examiner.

Applicants have further amended claims 13 and 24 to conform to the amended language of claims 12 and 23, respectively.

No new matter was added by these amendments.

Respectfully submitted,

Date: 7/12/04
